To the Board of Managers of MBERP II (Luxembourg) 27 S.à.r.l. 12C, Impasse Drosbach L-1882 Luxembourg Luxembourg

REPORT OF THE REVISEUR D'ENTREPRISES AGREE

Opinion

We have audited the consolidated financial statements of MBERP II (Luxembourg) 27 S.à.r.l. and its subsidiaries (the "Group"), which comprise the consolidated statement of financial position as at 31 December 2019, and the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2019, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRS) as adopted by the European Union.

Basis for Opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession ("Law of 23 July 2016") and with International Standards on Auditing ("ISAs") as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" ("CSSF"). Our responsibilities under the Law of 23 July 2016 and ISAs are further described in the « Responsibilities of "Réviseur d'Entreprises agréé" for the audit of the consolidated financial statements » section of our report. We are also independent of the Group in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants ("IESBA Code") as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the consolidated financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

We draw attention to Note 2 in the consolidated financial statements, which describes that the going concern basis of preparing the consolidated financial statements has not been used. The Board of Managers of the Group considers it appropriate to prepare the consolidated financial statements on a non-going concern basis given their intention to pursue an exit strategy rather than continue with development plans. Our opinion is not modified in respect of this matter.

The impact of uncertainties due to Britain exiting the European Union on our audit

Uncertainties related to the effects of Brexit are relevant to understanding our audit of the consolidated financial statements. All audits assess and challenge the reasonableness of estimates made by the Board of Managers, including the net realisable value of inventories, and the appropriateness of the going concern basis of preparation of the consolidated financial statements. All of these depend on assessment of the future economic environment and the Group's future prospects and performance.

Brexit is one of the most significant economic events for the UK, and at the date of this report its effect are subject to unprecedent levels of uncertainty of outcomes, with the full range of possible effects unknown.

We applied a standardise firm-wide approach in response to that uncertainty when assessing the Group's future prospects and performance. However, no audit should be expected to predict the unknowable factors or all possible future implications for a company and this is particularly the case in relation to Brexit.

Responsibilities of the Board of Managers for the consolidated financial statements

The Board of Managers is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRS as adopted by the European Union, and for such internal control as the Board of Managers determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the Board of Managers is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Managers either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the Réviseur d'Entreprises agréé for the audit of the consolidated financial statements

The objectives of our audit are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of "Réviseur d'Entreprises agréé" that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Managers.
- Conclude on the appropriateness of Board of Managers use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the "Réviseur d'Entreprises agréé" to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the "Réviseur d'Entreprises agréé". However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities and business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Notes to the consolidated financial statements

For the year ended 31 December 2019

1. General information

The company is incorporated in Luxembourg as a "société à responsabilité limitée" and is organised under the Luxembourg law for an unlimited period. The address of registered office is 12C, Impasse Drosbach, L-1882 Luxembourg, R.C.S Luxembourg, B 198 538.

These consolidated financial statements are presented in pounds sterling because that is the currency of the primary economic environment in which the MBERP II (Luxemburg) 27 S.àr.I. (the "Group") operates and is the presentation currency of the Group. Amounts are presented to the nearest pound.

The principal activity of the Group is the acquisition of land, the building of residential property and subsequent sale of residential properties.

These consolidated financial statements comprise the Company and its subsidiaries (together referred to as the 'Group').

These consolidated financial statements were approved for issue by the Board of Managers on 14 May 2020.

2. Summary of significant accounting policies Basis of accounting

The consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as adopted by the European Union.

The consolidated financial statements have been prepared on the historical cost basis.

The consolidated financial statements have been prepared on a basis other than as a going concern.

The principal accounting policies adopted are set out below.

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company (its subsidiaries) made up to 31 December each year. Control is achieved when the Company:

- has power over the investee;
- · is exposed, or has rights, to variable return from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Company reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

Notes to the consolidated financial statements

For the year ended 31 December 2019

2. Summary of significant accounting policies (continued) Basis of consolidation (continued)

When the Company has less than a majority of the voting rights of an investee, it considers that it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Company considers all relevant facts and circumstances in assessing whether or not the Company's voting rights in an investee are sufficient to give it power, including:

- the size of the Company's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;
- potential voting rights held by the Company, other vote holders or other parties;
- · rights arising from other contractual arrangements; and
- any additional facts and circumstances that indicate that the Company has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders' meetings.

Consolidation of a subsidiary begins when the Company obtains control over the subsidiary and ceases when the Company loses control of the subsidiary. Specifically, the results of subsidiaries acquired or disposed of during the year are included in the consolidated statement of comprehensive income from the date the Company gains control until the date when the Company ceases to control the subsidiary.

Where necessary, adjustments are made to the financial statements of subsidiaries to bring the accounting policies used into line with the Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between the members of the Group are eliminated on consolidation.

Changes in the Group's interests in subsidiaries that do not result in a loss of control are accounted for as equity transactions. The carrying amount of the Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to the owners of the Company.

When the Group loses control of a subsidiary, the gain or loss on disposal recognised in profit or loss is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets (including goodwill), less liabilities of the subsidiary and any non-controlling interests. All amounts previously recognised in other comprehensive income in relation to that subsidiary are accounted for as if the Group had directly disposed of the related assets or liabilities of the subsidiary (i.e. reclassified to profit or loss or transferred to another category of equity as specified/permitted by applicable IFRSs). The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under IFRS 9 Financial Instruments.

Cash flows

The Group has elected, under IAS 7 (Statement of Cash Flows), to classify interest paid that is capitalised into the cost of a qualifying asset, as an operating cash flow.

Notes to the consolidated financial statements

For the year ended 31 December 2019

2. Summary of significant accounting policies (continued)

Going concern

The consolidated financial statements have been prepared on a basis other than as a going concern. During the year, the Managers had decided to pursue an exit strategy for all remaining sites. The site sales are expected to be within the next 12 months, therefore the Group's income generating activities are unlikely to continue for a period of at least 12 months from the date of approval of the consolidated financial statements. Therefore, the Group will cease its main trading activity. During the year, it was identified by management that two of the entities within the Group will be formally closed down through the process of Members Voluntary Liquidation, for which a provision has been noted. There have been no other adjustments made to the consolidated financial statements for this matter.

Business combinations

Acquisitions of subsidiaries and businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interest issued by the Group in exchange for control of the acquiree. Acquisition-related costs are recognised in profit or loss as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their fair value at the acquisition date, except that:

 deferred tax assets or liabilities and assets or liabilities related to employee benefit arrangements are recognised and measured in accordance with IAS 12 Income Taxes and IAS 19 Employee Benefits respectively; and

• assets (or disposal groups) that are classified as held for sale in accordance with IFRS 5 Non-current Assets Held for Sale and Discontinued Operations are measured in accordance with that Standard.

When the consideration transferred by the Group in a business combination includes asset or liability resulting from a contingent consideration arrangement, the contingent consideration is measured at its acquisition-date fair value and included as part of the consideration transferred in a business combination. Changes in fair value of the contingent consideration that qualify as measurement period adjustments are adjusted retrospectively, with corresponding adjustments against goodwill. Measurement period adjustments are adjustments that arise from additional information obtained during the 'measurement period' (which cannot exceed one year from the acquisition date) about facts and circumstances that existed at the acquisition date.

The subsequent accounting for changes in the fair value of the contingent consideration that do not qualify as measurement period adjustments depends on how the contingent consideration is classified. Contingent consideration that is classified as equity is not remeasured at subsequent reporting dates and its subsequent settlement is accounted for within equity. Contingent consideration that is classified as an asset or a liability is remeasured at subsequent reporting dates at fair value with the corresponding gain or loss being recognised in profit or loss.

When a business combination is achieved in stages, the Group's previously-held interests in the acquired entity is remeasured to its acquisition date fair value and the resulting gain or loss, if any, is recognised in profit or loss. Amounts arising from interests in the acquiree prior to the acquisition date that have previously been recognised in other comprehensive income are reclassified to profit or loss, where such treatment would be appropriate if that interest were disposed of.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted during the measurement period (see above), or additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed as of the acquisition date that, if known, would have affected the amounts recognised as of that date.

Notes to the consolidated financial statements

For the year ended 31 December 2019

2. Summary of significant accounting policies (continued)

IFRS 9 Financial instruments

IFRS 9 sets out requirements for recognising and measuring financial assets, financial liabilities and some contracts to buy and sell non-financial items.

IFRS contains three principal classification categories for financial assets: measured at amortised cost, fair value through other comprehensive income, and fair value through profit and loss. The classification of financial assets under IFRS 9 is generally based on the business model in which a financial asset is managed and its contractual cash flow characteristics.

Financial instruments Recognition and measurement

Trade receivables and debt securities issued are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Group becomes a party to the contractual provisions of the instrument.

A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at fair value through profit and loss, transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

Classification and subsequent measurement

On initial recognition, a financial asset is classified as measured at: amortised cost; Fair value through other comprehensive income – debt investment and equity investment; or fair value through profit or loss.

Financial assets are not reclassified subsequent to their initial recognition unless the Group changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at fair value through profit or loss:

it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A debt investment is measured at fair value through other comprehensive income if it meets both of the following conditions and is not designated as at fair value through profit or loss:

• it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and

• its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Group may irrevocably elect to present subsequent changes in the investment's fair value in other comprehensive income. This election is made on an investment-by-investment basis.

Notes to the consolidated financial statements

For the year ended 31 December 2019

2. Summary of significant accounting policies (continued)

Financial instruments (continued)

All financial assets not classified as measured at amortised cost or fair value through other comprehensive income as described above are measured at fair value through profit or loss. On initial recognition, the Group may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at fair value through other comprehensive income as at fair value through profit or loss if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

In respect of trade and other receivables, the amounts presented in the balance sheet are measured at amortised cost less a loss allowance for expected credit losses which are assessed on the basis of an average weighting of the risk of default. For this purpose, a default is determined to have occurred if the Group becomes aware of evidence that it will not receive all contractual cash flows that are due. The results of the expected credit loss analysis have been concluded as immaterial.

Financial liabilities - Classification and subsequent measurements

Financial liabilities are classified as measured at amortised cost or fair value through profit or loss. A financial liability is classified as at fair value through profit or loss if it is classified as held-for-trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at fair value through profit or loss are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss on derecognition is also recognised in profit or loss.

Derecognition - Financial Assets

The Group derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Group neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

The Group enters into transactions whereby it transfers assets recognised in its statement of financial position, but retains either all or substantially all of the risks and rewards of the transferred assets. In these cases, the transferred assets are not derecognised.

Derecognition - Financial Liabilities

The Group derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire. The Group also derecognises a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognised at fair value.

On derecognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognised in profit or loss.

Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Group currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

Notes to the consolidated financial statements

For the year ended 31 December 2019

2. Summary of significant accounting policies (continued)

Financial instruments (continued)

Inventories

Inventories are stated at the lower of cost and estimate selling price less cost to sell, which is equivalent to net realisable value. Cost includes land purchases and associated cost, materials, direct labour and associated professional fees. On a quarterly basis the management updates the estimates for future revenue and expenditure on each development site. Future revenue and expenditure could differ from previous periods which could result in an impairment of inventory. Where forecast revenue is lower than forecast expenditure an impairment provision is made.

Revenue

IFRS 15 establishes a comprehensive framework for determining whether, how much and when revenue is recognised.

Under IFRS 15, revenue is recognised when a customer obtains control of the goods or services. Determining the timing of the transfer of control – at a point in time or over time - requires judgement.

Revenue is stated net of VAT and trade discounts and is recognised when the significant risks and rewards are considered to have been transferred to the buyer. Revenue from the sale of residential property or the sale of land is recognised when the sale has legally completed and transferred to the customer. Revenue from rental income represents the value of rent under contracts to the extent that there is a right to consideration and is recorded at the fair value of the consideration received or receivable. Where a contract has only been partially completed at the balance sheet date turnover represents the fair value of the service provided to date based on the stage of completion of the contract activity at the balance sheet date. Where payments are received from customers in advance of services provided, the amounts are recorded as deferred income and included as part of current liabilities.

Taxation

Income tax comprises current and deferred tax. It is recognised in the profit or loss except to the extent it relates to a business combination or items recognised directly in equity or in other comprehensive income.

Current tax, including UK corporation tax and foreign tax, is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the balance sheet date. Timing differences are differences between the Group's taxable profits and its results as stated in the consolidated financial statements that arise from the inclusion of gains and losses in tax assessments in periods different from those in which they are recognised in the consolidated financial statements.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that, on the basis of all available evidence, it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax liabilities are recognised for timing differences arising from investments in subsidiaries and associates, except where the Group is able to control the reversal of the timing difference and it is probable that it will not reverse in the foreseeable future.

Notes to the consolidated financial statements

For the year ended 31 December 2019

2. Summary of significant accounting policies (continued)

Taxation (Continued)

Deferred tax is measured using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date that are expected to apply to the reversal of the timing difference. Deferred tax relating to non-depreciable property measured using the revaluation model and investment property is measured using the tax rates and allowances that apply to sale of the asset. In other cases, the measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Where items recognised in other comprehensive income or equity are chargeable to or deductible for tax purposes, the resulting current or deferred tax expense or income is presented in the same component of comprehensive income or equity as the transaction or other event that resulted in the tax expense or income.

Current tax assets and liabilities are offset only when there is a legally enforceable right to set off the amounts and the Group intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

Deferred tax assets and liabilities are offset only if: (a) the Group has a legally enforceable right to set off current tax assets against current tax liabilities; and (b) the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

Leases

The Group as a lessor:

Rental income from operating leases is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised on a straight-line basis over the lease term.

Cash and cash equivalents

Cash and cash equivalents comprise cash balances and core deposits. Bank overdrafts that are repayable on demand and form an integral part of the Group's cash management are included as a component of cash and cash equivalents for the purpose of the cash flow statement.

Financing income and expenses

Financing expenses comprise interest payable, finance charges on shares classified as liabilities and finance leases recognised in profit or loss using the effective interest method, unwinding of the discount on provisions, and net foreign exchange losses that are recognised in the consolidated statement of comprehensive income (see foreign currency accounting policy). Borrowing costs that are directly attributable to the acquisition, construction or production of an asset that takes a substantial time to be prepared for use, are capitalised as part of the cost of that asset. Financing income comprise interest receivable on funds invested, dividend income, and net foreign exchange gains.

Foreign currency transactions

Transactions in foreign currencies are translated into the functional currency of the Group companies at the exchange rates at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined.

Notes to the consolidated financial statements

For the year ended 31 December 2019

3. Standards in effect in 2019 adopted by the Group

The following new and revised Standards and Interpretations have been issued and are effective for the current financial period of the company.

• IFRS 16 Leases took effect from 1 January 2019 and has been adopted for the year ended 31 December 2019. The Group has chosen to use the modified retrospective approach, recognising transitional adjustments on the date of initial application (i.e. 1 January 2019) without restatement of the comparative figures. Leases which the Group were party to were previously classified as operating leases based on its assessment of whether the lease transferred substantially all the risks and rewards of ownership to the lessee. Under IFRS 16 the Group (when as a lessee) now recognises right of use assets and lease liabilities for leases other than those for low value assets or for short term leases of 12 months or less. In 2018, the Group had recognised lease obligations as operating leases, only (2019: £nil).

During the year IFRS 16 was adopted, this has had no material impact on the consolidated financial statements.

• IFRIC 23 (Uncertainty over Income Tax Treatments), which became effective on 1 January 2019, clarifies the accounting for uncertainties in income taxes.

The Group is required to consider whether it is probable that the relevant authority will accept each tax treatment, or group of tax treatments, that it used or plans to use in its income tax filing. As the Group has concluded that it is probable that a particular tax treatment will be accepted, it has determined taxable profit (tax loss), tax bases, unused tax losses, unused tax credits or tax rates consistently with the tax treatment included in its income tax filings.

During the year IFRIC 23 was adopted, this has had no material impact on the consolidated financial statements.

 Long-term Interests in Associates and Joint Ventures (Amendments to IAS 28), which became effective on 1 January 2019, clarifies that the exclusion in IFRS 9 (Financial Instruments) of interests in associates and joint ventures accounted for in accordance with IAS 28, Investments in Associates and Joint Ventures, applies only to interests a company accounts for using the equity method. In this amendment, a company applies IFRS 9 to other interests in associates and joint ventures, including long-term interests to which the equity method is not applied and that, in substance, form part of the net investment in those associates and joint ventures.

During the year the amendments to IAS 28 was adopted, this has had no material impact on the consolidated financial statements.

New and revised standards in issue but not yet effective

The following IFRS and IFRIC Interpretations have been issued but have not been applied by the Group in preparing these financial statements as they are not as yet effective and in some cases had not yet been adopted by the EU. The Company intends to adopt these Standards and Interpretations when they become effective, rather than adopt them early.

• IFRS 3 Business Combinations (Amendment - Definition of Business) - effective on 1 January 2020

• Revised Conceptual Framework for Financial Reporting – effective on 1 January 2020

The managers do not expect that the adoption the Standards listed above will have a material impact on the Group in future periods.

A number of IFRS and IFRIC interpretations are also currently in issue which are not relevant for the Group's activities and which have not therefore been adopted in preparing these financial statements.

Notes to the consolidated financial statements

For the year ended 31 December 2019

4. Critical accounting judgements and key sources of estimation uncertainty

In the application of the Group's accounting policies, which are described in note 2, the Managers are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Critical judgements in applying the Group's accounting policies

The following are the critical judgements, apart from those involving estimations (which are dealt with separately below), that the Managers have made in the process of applying the Company's accounting policies and that have the most significant effect on the amounts recognised in the consolidated financial statements.

Revenue recognition

In its assessment of revenue recognition the Group recognised the sale of residential property on the legal completion of the sale of property as the point where revenue is recognised.

The Group recognises the development contract revenue when the service has been rendered to the customer. Where a contract has only been partially completed at the balance sheet date, revenue represents the fair value of the service provided to date based on stage of completion of the contract activity at the balance sheet date. Where payments are received from customers in advance of services provided, the amounts are recorded as deferred income and included as part of creditors due within one year. Where the completion stage cannot be reliably determined, revenue is recognised only to the extent that costs are deemed to be recoverable.

Profit is recognised on a plot-by-plot basis by reference to the total margin forecast on each individual development site. Due to the development cycle often exceeding one financial year, plot margins are forecast taking into account site wide development costs relating to land infrastructure and build and estimates required for costs to complete such developments. This has a corresponding impact on the basis of calculation of the carrying amount of stock.

Inventory - net realised value

In its assessment of the net realisable value of the inventories the Group has based their assumptions on the future cost to complete the residential housing units and the anticipated saleability of the properties. The Group's assumptions are based on the most recent prices achieved for similar properties in a similar location and the build cost per square foot associated with similar properties. In addition to the assumptions set out above, the Group takes into account any permanent devaluation of the residential housing market as a result of macro economic conditions which have made themselves apparent.

Shareholder loans - fair value on initial recognition

The Group has assessed that the fair value of the shareholder loans in initial recognition is materially the same as face value. In arriving at this conclusion management has taken advice on the arms length rate of interest charged from external transfer pricing experts, who have compared the terms of the loans to similar instruments in the market place.

Notes to the consolidated financial statements

For the year ended 31 December 2019

4. Critical accounting judgements and key sources of estimation uncertainty (Continued) Capitalisation of interest

The Group has capitalised interest on relevant loans on qualifying assets. Judgement is required to determine which assets meet the definition of qualifying assets. The Board of Managers consider inventory to be a qualifying asset in accordance with IAS 23, on the basis that the conversion of inventories takes a substantial period of time to get ready for its intended sale.

For land awaiting planning permission prior to sale, the Group's policy is to capitalise interest up to the later of:

date of change in business plan; or

• date when planning permission to develop has been granted

5. Revenue

| | Year ended 31 December 2019 | Year ended 31 December 2018 |
|--|--------------------------------|--------------------------------|
| | £ | £ |
| The Group's turnover by class of business is as follows: | | |
| Sale of residential properties | 50,865,772 | 71,642,920 |
| Sale of land | 92,914,601 | 51,943,542 |
| Rental income from property | 735,892 | 381,702 |
| Development contract revenue | 38,808,969 | - |
| | 183,325,234 | 123,968,164 |

All of the Group's business activities are conducted in the United Kingdom.

Information about major customers

Included in revenues arising from sale of land and from development contracts are revenues of approximately £129.61 million (2018: £51.94 million) which arose from sales to the Group's largest three customers. These customers individually contributed 10 per cent or more to the Group's revenue in the period.

6. Administrative expenses

| | Year ended 31 December 2019 £ | Year ended 31 December 2018 £ |
|--|-------------------------------------|-------------------------------------|
| Audit fees | 43,076 | 68,591 |
| Professional fees | 292,093 | 388,340 |
| Legal fees | 279,706 | 44,103 |
| Investment management & development fees (see note 23) | 2,382,854 | 3,061,341 |
| Foreign exchange gains/(losses) | 53 | 96 |
| Rent and utilities fees | 77,936 | 669,996 |
| Bank charges | 14,564 | 18,621 |
| Marketing | 475,634 | 1,304,212 |
| Sundry | 1,295 | 10,784 |
| | 3,567,211 | 5,566,084 |

Notes to the consolidated financial statements

For the year ended 31 December 2019

7. Finance costs

| | Year ended 31 December 2019 £ | Year ended 31 December 2018 £ |
|--|-------------------------------------|-------------------------------------|
| Interest payable on shareholder loan | 5,165,626 | 1,641,624 |
| Interest payable on bank borrowings | 1,258,057 | 196,505 |
| (Write back)/amortisation of finance arrangement fee | (244,977) | 339,005 |
| | 6,178,706 | 2,177,134 |

8. Income tax (expense)/credit

| | Year ended 31 December 2019 £ | Year ended 31 December 2018 £ |
|--|-------------------------------------|-------------------------------------|
| Current tax on loss for the year | | |
| UK corporation tax (expense)/credit | (3,193,467) | 456,206 |
| Total current tax (expense)/credit | (3,193,467) | 456,206 |
| Deferred tax | | |
| Origination and reversal of timing differences | 287,242 | 1,138,672 |
| Deferred tax impairment | - | (552,850) |
| Total deferred tax | 287,242 | 585,822 |
| Total income tax (expense)/credit for the year | (2,906,225) | 1,042,028 |

A reduction in the UK Corporation tax rate from 19% to 17% (effective from 1 April 2020) was substantively enacted on 6 September 2016. However, in the 2020 Spring Budget, it was announced that the UK Corporation tax rate will remain unchanged at 19%.

A reduction in the Luxembourg statutory tax rate from 26.01% (effective for the 2018 calendar year) to 24.94% (effective for the 2019 calendar year) have been enacted. The reduction of the UK and Luxembourg tax rates will reduce the Group's future current tax charge accordingly.

The differences between the total tax charge shown above and the amount calculated by applying the standard rate of Luxembourg corporation tax to the profit before tax is as follows:

| | Year ended 31 December 2019 £ | Year ended 31 December 2018 £ |
|---|-------------------------------------|-------------------------------------|
| Profit/(loss) before income tax | 13,221,433 | (12,173,622) |
| - Tax on Group loss at standard Luxembourg corporation tax rate of 24.94 per cent for 2019 (2018: 26.01%) | 3,297,425 | (3,166,359) |
| Effects of: | | |
| Difference in tax rate in other jurisdictions | (785,353) | 532,094 |
| Expenses not deductible for tax purposes | 113,446 | 1,055,594 |
| - Transfer pricing adjustment | - | (24,668) |
| - Deferred tax asset impairment | - | 552,850 |
| - Other timing differences | 280,707 | - |
| - Effect of utilising losses at different rate of corporation tax | - | 8,461 |
| Total corporation tax expense/(credit) for the year | 2,906,225 | (1,042,028) |

Notes to the consolidated financial statements

For the year ended 31 December 2019

9. Subsidiaries

The Group consists of a Parent Company incorporated in Luxembourg and a number of subsidiaries held directly by the Parent Company, which are incorporated in and operate out of the United Kingdom and registered address of 60 Goswell Road, London, EC1M 7AD.

All subsidiaries listed below are controlled by the Parent Company and are included in these consolidated financial statements:

| Subsidiary | Country of incorporation | % Holding | Nature of business |
|------------------------------|--------------------------|-----------|----------------------------------|
| MB Tolworth Limited | United Kingdom | 100% | Residential property development |
| MB Epsom Limited | United Kingdom | 100% | Residential property development |
| MB Fulham Limited | United Kingdom | 100% | Residential property development |
| MB Higham's Park Limited | United Kingdom | 100% | Residential property development |
| MB Homes Lewisham Limited | United Kingdom | 100% | Residential property development |
| MB Hounslow Limited | United Kingdom | 100% | Residential property development |
| MB New Barnet Limited | United Kingdom | 100% | Residential property development |
| MB St Albans Limited | United Kingdom | 100% | Residential property development |
| MH Devco Limited | United Kingdom | 100% | Residential property development |
| MB Fulham Commercial Limited | United Kingdom | 100% | Commercial trading property |

In June 2019 the Group sold all the shares of MB Hillingdon Limited to Inland Developments Limited.

Notes to the consolidated financial statements

For the year ended 31 December 2019

10. Inventories

| | Work in progress | Finished goods | Total |
|---|---------------------|----------------|--------------|
| | £ | £ | £ |
| As at 31 December 2017 | 218,265,891 | 42,365,229 | 260,631,120 |
| Development expenditure | 21,537,717 | - | 21,537,717 |
| Professional fees expenditure | 2,385,681 | - | 2,385,681 |
| Capitalised finance cost, capitalised rate used 5.6% p.a. | 10,885,712 | - | 10,885,712 |
| Transfer to finished goods | (100,396,505) | 100,396,505 | - |
| Sold property (cost of sales) | (40,220,729) | (49,931,829) | (90,152,558) |
| Impairment | - | (10,745,305) | (10,745,305) |
| As at 31 December 2018 | 112,457,767 | 82,084,600 | 194,542,367 |
| Professional fees expenditure | 1,505,049 | - | 1,505,049 |
| Capitalised finance cost, capitalised rate used 5.6% p.a. | 4,198,163 | - | 4,198,163 |
| Sale of land | - | (66,666,298) | (66,666,298) |
| Transfer to finished goods | (83,586,931) | 83,586,931 | - |
| Sale of subsidary treated as sale of land | (15,889,573) | - | (15,889,573) |
| Sold property (cost of sales) | - | (49,776,973) | (49,776,973) |
| Reversal of impairment | - | 3,084,513 | 3,084,513 |
| As at 31 December 2019 | 18,684,475 | 52,312,773 | 70,997,248 |

The cost of inventories recognised as an expense during the year in respect of continuing operations was £132.3 million (2018: £100.9 million). The disposal of the shares in MB Hillingdon Limited has been reflected within these consolidated financial statements as the sale of land; the sale of land is calculated by inputting the cost of sales figure based on the carrying value of the investment. This causes cost of sales to be significantly higher than just the amounts that have been expensed from inventories. A further reason why cost of sales is greater than the cost of inventories recognised as an expense in the year is that the cost of sales further includes direct cost of sales items totalling £29.7 million not expensed from inventories of which predominantly relates to the cost of construction of residential buildings on behalf of other aroup companies.

The Managers consider that all of the inventories are current in nature. It is anticipated that all of inventories will be realised within 12 months. It is not possible to determine with accuracy when specific inventory will be realised as this will be subject to a number of issues including the strength of the property market. However, inventories of approximately £20.0 million (2018: £39.2 million) are expected to be recovered after more than 12 months through predicted sales.

Notes to the consolidated financial statements

For the year ended 31 December 2019

11. Trade and other receivables

| | Year ended 31 December 2019 | Year ended 31 December 2018 |
|--|--------------------------------|--------------------------------|
| | £ | £ |
| Trade receivables | 419,000 | 901,951 |
| Amounts receivable from related undertakings (note 23) | 912,264 | 962,054 |
| VAT receivable | 61,041 | 245,234 |
| Escrow accounts (restricted cash) | 889,235 | 888,791 |
| Other receivables | 1,485,574 | 3,460,424 |
| Accrued income | 11,640,095 | - |
| | 15,407,209 | 6,458,454 |

Accrued income comprises £11.3m in relation to the development contract revenue due from a single customer.

The Ageing of trade receivables is as follows:

| Not past due nor impaired | 15,407,209 | 6,458,454 |
|---------------------------|------------|-----------|
| | 15,407,209 | 6,458,454 |

The results of the expected credit loss analysis have been concluded as immaterial.

12. Restricted cash deposits

Cash on deposit includes a balance of £nil (2018: £5,004,862) held, within Investec Bank plc as security over the Development Finance Arrangement between the Group and Investec Bank plc in relation to MB Fulham Limited, the Fulham development.

Cash on deposit includes a balance of £nil (2018: £2,416,436) held, within Lloyds Bank plc as security over the Development Finance Arrangement between the Group and Lloyds Bank plc in relation to MB St Albans Limited, the St Albans development.

Cash on deposit includes a balance of £nil (2018: £154,189) relating to an account that both collect rent and pay interest to Lloyds Bank plc in relation to existing rental stock (included in finished goods).

Cash on deposit includes a balance of £nil (2018: £100) relating to the sales proceeds of residential stock developed in St Albans. The cash in this account was used to repay interest and principal to Lloyds Bank plc.

Cash held on deposit has been excluded from cash and cash equivalents in the consolidated statement of cash flows since it is not freely available for use by the Group.

Notes to the consolidated financial statements

For the year ended 31 December 2019

13. Trade and other payables

| | Year ended 31 December 2019 | Year ended 31 December 2018 |
|--|--------------------------------|--------------------------------|
| | £ | £ |
| Trade payables | 2,351,805 | 7,483,764 |
| Corporation tax payable | 3,193,467 | - |
| Amounts owed to affiliated undertaking (note 23) | 12,995 | 446,410 |
| Accruals | 5,048,206 | 2,414,306 |
| Deferred income | 42,008 | - |
| Other creditors | 3,896,902 | 292,590 |
| Trade and other payables - current liabilities | 14,545,383 | 10,637,070 |

Other creditors comprises a £3.7m discount owed to a single third party in relation to the development contract revenue.

14. Bank borrowings

| Secured borrowing at amortised cost | 2019 £ | 2019 £ | 2019 £ |
|-------------------------------------|--------------------------|-----------------------|--------------------------|
| | Face value | Loan issue cost | Total loans |

| · | 33,287,487 | - | 33,287,487 |
| Repayments in the year | (33,287,487) | - | (33,287,487) |
| As at 31 December 2019 | - | - | |
| Secured borrowing at amortised cost | 2018 | 2018 | 2018 |
| j | £ | £ | £ |
| | Face value | Loan issue cost | Total loans |
| Lloyds Bank plc | 59,436,984 | | 59,436,984 |
| LIUYUS DAHK DIC | J9,4J0,904 | - | 33,430,304 |
| Investec plc | 28,968,204 | - | 28,968,204 |
| | , , | - - - | , , |
| | 28,968,204 | - - - - | 28,968,204 |
| Investec plc | 28,968,204 88,405,188 | - - - - - | 28,968,204 88,405,188 |

Lloyds Bank plc loan was entered into on 16 September 2016. The loan was repayable in August 2018 and its repayment date was subsequently (in August 2018) extended to August 2019. The loans bear interest at 3.25% above the prevailing LIBOR per annum. Lloyds Bank plc hold a charge over the property known as Gabriel Square, St Albans AL1 1LN, as part of the first legal mortgage over the property. The loan was fully repaid in June 2019.

Notes to the consolidated financial statements

For the year ended 31 December 2019

14. Bank borrowings (continued)

Investec Bank plc loan was entered into on 21 December 2016. The loan was repayable November 2018 and its repayment date was subsequently (July 2018) extended to May 2019. The loan bears interest at 4.5% above the prevailing LIBOR per annum. Investec Bank plc hold a charge over the land known as 84, 86, 88 and 90b Fulham High Street and 5 Church Gate Fulham, as part of a legal mortgage over the land. The loan was fully repaid in April 2019.

As at the reporting date the Group had undrawn loan facilities amounting to £nil (2018: £1.0m).

15. Deferred tax provision

| | Year ended 31 December 2019 | Year ended 31 December 2018 |
|--|--------------------------------|--------------------------------|
| | £ | £ |
| At start of year | (37,439) | (214,610) |
| Charged to statement of comprehensive income (note 8) | 287,242 | 1,042,028 |
| Deferred tax asset disposed of (related to MB Dartford Limited) | - | 75,870 |
| Deferred tax asset disposed of (related to MB Hillingdon Limited | (249,803) | - |
| Deferred tax impairment | - | (552,800) |
| Other | - | (387,927) |
| At end of year | - | (37,439) |
| Of which: | | |
| Reverse in more than one year | - | (37,439) |
| - | - | (37,439) |
| = | | (37,439) |

The Group has recognised £nil deferred tax liability at the year end, as any deferred tax liability in the Group accounts (and not in those of the entities that submit corporation tax returns) would be a liability that is not owed to a taxation authority.

Notes to the consolidated financial statements

For the year ended 31 December 2019

The interest charge shown in the reconciliation above includes interest which has been capitalised as it relates to assets under construction. This is why the interest charge above does not reconcile with that disclosed in note 7.

Notes to the consolidated financial statements

For the year ended 31 December 2019

18. Share capital

| Authorised | Year ended 31 December 2019 £ | Year ended 31 December 2018 £ |
|--|-------------------------------------|-------------------------------------|
| 179,338 Class A Ordinary shares of £1 each | 179,338 | 179,338 |
| 717,351 Class B Ordinary shares of £1 each | 717,351 | 717,351 |
| 538,013 Class C Ordinary shares of £1 each | 538,013 | 538,013 |
| 7 Class D Ordinary shares of £1 each | 7 | 7 |
| | 1,434,709 | 1,434,709 |
| | Year ended 31 December 2019 | Year ended 31 December 2018 |
| Allotted, called up and fully paid | £ | £ |
| 179,338 Class A Ordinary shares of £1 each | 179,338 | 179,338 |
| 717,351 Class B Ordinary shares of £1 each | 717,351 | 717,351 |
| 538,013 Class C Ordinary shares of £1 each | 538,013 | 538,013 |
| 7 Class D Ordinary shares of £1 each | 7 | 7 |
| | 1,434,709 | 1,434,709 |

Each of the four classes of shares above (A,B, C and D) have the same rights attached.

Each share is entitled to one vote at ordinary and extraordinary meetings.

19. Share premium account

| | Year ended 31 December 2019 | Year ended 31 December 2018 |
|-------------------------|--------------------------------|--------------------------------|
| | £ | £ |
| Opening balance | 21,817,900 | 21,817,900 |
| Share premium reduction | (11,339,928) | - |
| Closing balance | 10,477,972 | 21,817,900 |

On 30 September 2019, the Group returned £11,339,928 to its shareholders as a reduction to the share premium account.

20. Operating lease commitments and contingent liabilities Operating lease

At the reporting date the Group had outstanding commitments for future minimum lease payments under non-cancellable operating leases for land, which fell due as follows:

| | Year ended 31 December 2019 £ | Year ended 31 December 2018 £ |
|----------------------------|-------------------------------------|-------------------------------------|
| Within one year | - | 1,825 |
| Between one and five years | - | 7,300 |
| In over five years | - | 91,250 |
| | | 100,375 |

Following the sale of all the share capital of MB Hillingdon Limited, there are no significant leases in place at the year-end which would require disclosure of the leasing arrangements in place.

Contingent liabilities

The Managers are not aware of any contingent liabilities.

Notes to the consolidated financial statements

For the year ended 31 December 2019

21. Financial risk management

The Group's financial instruments comprise of bank borrowings, shareholder loans, cash and cash equivalents and trade and other receivable, trade and other payables. All bank borrowings were paid in 2019.

It is and has been throughout the year, the Group's policy that no trading in financial instruments shall be undertaken.

Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. The Group's approach to managing liquidity risk is to ensure that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or damage to the Group's reputation.

The Managers manage liquidity risk by regularly reviewing cash requirements by reference to short term cash flow forecasts and medium term working capital projections prepared by management. There is liquidity risk associated with the event of bank loans falling due before they are repaid if the rate of sales slows below that currently forecast. In this scenario the Managers plan to extend the term of the loans. The Group maintains good relationships with its banks, which have high credit ratings.

Credit risk

Credit risk refers to the risk that the counterparty will default on its contractual obligations resulting in financial loss to the Group. Credit risk arises principally from the Group's trade and other receivables of £15.4M (2018: £7.9M) and its cash and deposit balances of £8.97M (2018: £13.78M). The Group gives careful consideration to which organisations it uses for its banking services in order to minimise credit risk.

At the end of the reporting date, the Company has a certain concentration of credit risk as 48% (2018: 55%) and 57% (2018: 75%) of the total trade and other receivables was due from the Company's largest customer and the five largest customers respectively. The maximum exposure to credit risk is represented by the carrying amount of each financial asset. At the year end, there was no collateral held as security on outstanding balances.

The Group does not expect credit losses on cash and trade receivables at the year end. The impact of such losses should they arise in the future, are not expected to be material.

The Group's policy is to manage credit risk by requiring proof of available funds or pre-approved financing in place prior to entering into a sale with a customer.

Brexit risk

Significant political events including the impact of the vote to leave the EU and the continued uncertainty over the timing and form of Brexit, may impact on the Group's business. This may impact on the business through the reluctance of buyers to make investment decisions due to political uncertainty and a potential reduction in the number of construction staff due to restrictions on immigration. Subsequently, specific policies and regulation may be introduced that directly impact our business model. Whilst we cannot directly influence political events, the risks are taken into account when setting our business strategy and operating model.

Interest rate risk

The Group's interest rate risk arises from certain of its borrowings. Borrowings issued at variable rates expose the Group to cash flow interest rate risk. As at 31 December 2019, the Group was not exposed to floating rate debt. Borrowings issued at fixed rates expose the Group to fair value interest rate risk. The Group is also exposed to interest rate risk on cash and cash equivalents.

Notes to the consolidated financial statements

For the year ended 31 December 2019

21. Financial risk management (continued) Interest rate risk on bank borrowings

The Group's intercompany loans are fixed rate loans, so changes in interest rates will have no impact on interest expense. However changes in interest rates would impact on the disclosable fair value of the loans.

Currency Exposure

As at 31 December 2019 the Group had limited currency exposures. All material financial assets and liabilities are denominated in Pound Sterling.

Fair values

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share based payment transactions that are within the scope of IFRS 2, leasing transactions that are within the scope of IFRS 16, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in IAS 2 or value in use in IAS 36.

The fair value of borrowings has been calculated using the present value of expected cash flows discounted at the effective interest rate.

The Group recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

There were no fair value transfers during the period.

Further information about the assumptions made in measuring fair values is included in the following note:

• 4. Critical accounting judgments (in relation to shareholder loans)

No fair values have been disclosed for current assets because their carrying amounts approximates to fair value due to their short-term maturities.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole.

Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

The fair value of the assets when ready for sale will be measured against recent open market sale transactions. It is Management's assessment, based on schemes of similar size, design and location, based on sales generated and predicted long-term market movements, that the net realisable value of the remaining residential units and the underlying land asset with planning permission, will exceed the current carrying value.

Notes to the consolidated financial statements

For the year ended 31 December 2019

21. Financial risk management (continued)

| Categories of financial instruments | |
|-------------------------------------|--|
|-------------------------------------|--|

| | As at 31 December 2019 £ | As at 31 December 2018 £ |
|---|--------------------------------|--------------------------------|
| Financial assets: | 2 | 2 |
| Cash and cash equivalents | 8,970,455 | 6,206,447 |
| Restricted cash deposits | - | 7,575,587 |
| Trade and other receivables | 15,407,209 | 6,458,454 |
| Financial liabilities: | | |
| Trade and other payables: current (excluding deferred income) | (11,296,913) | (10,637,070) |
| Shareholder loans: current | (51,539,194) | (2,916,227) |
| Shareholder loans: non-current | (24,038,959) | (161,628,536) |
| Bank borrowings: current | - | (33,287,487) |
| Net position | (62,497,402) | (188,228,832) |

Other than for bank borrowings (2019: £nil), the carrying value of the financial instruments above is a reasonable approximation of fair value, reflecting level 3 valuation techniques - inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The following table details the Group's remaining contractual maturity for its non-derivative financial liabilities with agreed maturity periods. The table has been drawn based on the undiscounted cash flows of the financial liabilities based on the earliest date on which the Group can be required to pay. The tables include both interest payable and principal cash flows.

Maturity analysis for financial liabilities

Details of the shareholder loans are disclosed in note 16 and 17.

Development fees are an allocation of the cost of the developer (Meyer Homes Limited) to the Group's subsidiaries holding land that is being developed.

Investment management fees are charged at 0.9% of the capital invested in the Group's subsidiaries holding land that is being developed.

Notes to the consolidated financial statements

For the year ended 31 December 2019

24. Controlling party

The Group has no ultimate controlling party of which this company is a member and for which consolidated financial statements are publicly available.

25. Events after the reporting date

Since the reporting date:

In 2020, a planning permission was granted by the Secretary of State for the Lewisham site following an appeal application in 2019.

Subsequent to the year end, the impact of the COVID-19 pandemic has caused considerable disruption in the housing market. Government restrictions on movement has effectively stopped all viewings and completions on sites. This will delay, significantly, the timeliness of cash collection. Due to the timing of the impact of COVID-19 being after the balance sheet date, 31 December 2019, the Group does not consider this an adjusting event under IFRS, however it does acknowledge that the carrying value of stock or land could be affected. The Group has no evidence to support a prolonged negative impact on sales values, but it does believe that due to uncertainty there could be short term market fluctuations. The impact of COVID-19 on the Group will be continuously monitored.
